

Pricing Display Changes

Product Advisory Number: 570	Version: 04	Effective Date: 03FEB2009				
High Level Description	Introduce new data in all Worldspan Fares and Pricing displays including the following fare products; Money Saver and Carrier Specific Fare Displays (4F), Itinerary Pricing (4P), Low Fare Finder (4PLF), Power Flight Search (\$P.1), Power Pricing (4PLI) and Power Shopper (\$P) and User Defined Itinerary Pricing (\$A).					
Impact Summary	All Worldspan GDS customers will have screen display changes for the above listed products. See attached Technical Specifications for details. Changed effective date to 03FEB2009, from 27JAN2009.					
Reason For Issue	Code has been loaded to Production. Customers wishing to preview can do so with #DN on their pricing entries. Currently in LTCUST the default setting is to display the new Pricing Display screen changes. Users can add #DO to revert to current (old) version of Pricing Display screens					
Customer Impact	N	Internal Only				
	Y	Subscribers				
	Y	Developers *				
	N	Air Suppliers				
	N	Surface Suppliers				
System	N	Galileo	N	Apollo	Y	Worldspan
Product Area	N	Host Function

	N	Web Services (API and Messaging) *				
	N	Galileo Fares Interface (ATO/CTO)				
N	Hosting					
Load to Production	No change to production load date 03FEB 06:00 EST					
Load to Copy	09DEC2008 change default of pricing display screen changes to LTCUST. Effective with 09DEC2008 LTCUST load, the new pricing display screen changes will be the default. To view current production system screen display user must append #DO to view old screen design.					
* Additional Information						
Web Services (API and Messaging)	Pricing Display updates will be available in DIR/XML Pro and Universal Messaging					

OVERVIEW

In February 2009 updated Worldspan Pricing displays will premier to encompass the addition of new pricing data and realign existing information for an easier to read screen display. The purpose for these changes is;

1. Realignment of existing data to create groupings for fare basis codes, taxes, and fee information by passenger type
2. New data elements for quick, at a glance ticket price and grand total summary information
3. Support of upcoming implementations; expansion for 99 Taxes, forthcoming ATPCO Ticketing fees (OB) Please note: introduction of 99 taxes and ATPCO (OB) Ticketing Fees will be handled with additional Product Advisories and Technical Specifications.

The upcoming Pricing Display changes will be reflected in the following fares products; Money Saver and Carrier Specific Fare Displays (4F), Itinerary Pricing (4P), Low Fare Finder (4PLF), Power Flight Search (\$P.1), Power Pricing (4PLI) and Power Shopper (\$P) and User Defined Itinerary Pricing (\$A).

CUSTOMER BENEFIT

- New Pricing Displays offer an easy to read format
- Groups fare data, fare basis code, taxes and fee information by passenger type
- Creates an alignment of all fare basis codes
- Introduces new ticket price and grand total summary information
- Supports implementation of future expansion to 99 Taxes, and ATPCO Ticketing Fees(OB) and Optional Services (OC)

DETAIL AND CUSTOMER EXAMPLES

Pricing Display Changes

Effective on Feb 03, 2009 changes will be made to pricing display as follows:

- A new pricing summary will replace the current pricing summary in all pricing displays. The pricing summary will indicate the ticket base, equivalent base (when applicable), tax total and total per PTC and for all PTCS.

Example with equivalent pricing

	1	2	3	4	5	6
TICKET	BASE GBP	EV USD	TX/FEE USD	TKT	TTL	USD
ADT01	233.00	466.00	106.63		572.63	
INF01	23.30	47.00	38.00		85.00	
*TTL	256.30	513.00	144.63		657.63	

Example without equivalent pricing

	1	2	3	4	5	6
TICKET	BASE USD		TX/FEE USD	TKT	TTL	USD
ADT01	466.00		106.63		572.63	
INF01	47.00		38.00		85.00	
*TTL	513.00		144.63		657.63	

Example with more than one passenger with the same PTC

	1	2	3	4	5	6
	1234567890123456789012345678901234567890123456789012345678901234					
TICKET	BASE USD			TX/FEE USD		TKT TTL USD
ADT02	466.00			106.63		572.63
*TTL	932.00			213.26		1145.26

The amounts shown next to the PTC show charge for one passenger, however the total does reflect two ADT passengers.

- The Fare Basis Code will display in its own line above the ladder. When more than one fare basis code applies they will be separated with a '*'. When it is necessary to go to the next line, the FBC will not be truncated. The first FBC of the new line will align with the first FBC above.

	1	2	3	4	5	6
	1234567890123456789012345678901234567890123456789012345678901234

The amount reflected next to the PTC will indicate the amount for a single passenger. The TTL line will display the total amount for all passengers.

- **When ticketing fees apply:**

- **Ticketing Fees are planned for a separate MAY 2009 release. Any screen changes with reference to ticketing fees will be released May 2009.**

- A GRAND total amount and PTC total will display above the ticket summary.

The PTC total will be the sum of the ticket total and the ticketing fees total for all passengers with the same PTC ((tkt + tkt fee) X no. of same PTCs).

	1	2	3	4	5	6
	12345678901	2345678901	2345678901	2345678901	2345678901	2345678901234
GRAND TTL						727.63 USD
ADT01 TTL						627.63 USD
INF01 TTL						100.00 USD

- A summary of the ticketing fees will display in the Pricing Summary area, below the ticket fare data.

	1	2	3	4	5	6
	12345678901	2345678901	2345678901	2345678901	2345678901	2345678901234

*TTL	64.00		6.00		70.00	
<i>/Partial Display/</i>						

The amount reflected next to the PTC will indicate the amount for a single passenger. The *TTL line will display the ticket fee total amount for all passengers.

- A new advisory message will be issue to alert the user that Ticketing Fee's may vary based on point of sale/ticketing, validating carrier used and form of payment. The following advisory message will be included in all pricing displays:

	1	2	3	4	5	6
	12345678901	2345678901	2345678901	2345678901	2345678901	2345678901234
* TKT FEES APPLY TO ETKT AND MAY VARY BASED ON FOP/VAL CXR/POS						

- A Ticketing Fee detail section will be added to all applicable displays. The validating carrier, fee Type, Sub code, commercial name and fee base, tax type/amount and total amount will be displayed. Ticketing Fees will be indicated and grouped by Passenger Type Code. If no Ticketing Fee's apply to a specific PTC then nothing will be shown for that PTC.

1234567890123456789012345678901234567890123456789012345678901234					
TKT FEE DETAIL - BA					
ADT	DESCRIPTION	BASE USD	TX USD	TTL USD	
OBFCA	- ANY CC -	38.00	2.00	40.00	
TX 2.00XX					
OBT01	- UK FEE -	13.00	2.00	15.00	
TX 2.00XX					
TKT FEE TTL		51.00	4.00	55.00	
INF	DESCRIPTION	BASE USD	TX USD	TTL USD

```

Although 4P* is used to create a ticketing record, and the ticketing fee's will not be stored in the ticketing record, the initial output for a 4P* will be the same as for 4P. It will indicate the complete ticket cost, including ticketing fee's. The ticketing record will not include the fee's and when the ticketing record is displayed (4*) it will not show the ticketing fee's.

Shopping Display Changes

When ticketing fees apply, changes will be made to shopping display as follows:

- A Ticketing fee summary will be displayed one line below the base, tax, total fare information.
- Ticketing Fee data will reflect sum of all applicable ticketing fees by pricing solution.
- The total fees will be shown along with the validating carrier code responsible for assessing these fees.
- A grand total will display next to the ticketing fee information.
- If account code or private fare information exists the ticketing fee will display above the account code or private fare information.
- Detailed ticketing fee information will be displayed in the pricing detail display (4PLI*Fn).
- Solutions will be sorted based on the Grand Total amount. If a Grand Total amount is not known because enough information was not provided to calculate all possible ticketing fee's or no ticketing fee's apply, the total Fare amount will be used as the sort criteria (instead of Grand total) for that solution. When ticketing fees do not apply to any pricing solution, all solutions will be sorted based on total fare (current logic).
- When multiple Passenger Type Codes (PTCs) are being priced, the total amount will appear one line below each pricing result. If the #/\$ option is used, the total for each PTC will be displayed.
- A new optional parameter will be introduced to request sort by total fare rather than by Grand total, regardless of whether a grand total exists or not. New optional parameter #TFT

Stored Fare Quote Display Changes

In order to remain consistent with pricing display changes the response to a Stored Fare Quote entry will be modified to include the new Pricing summary:

Ticketing Fees are not part of the Ticketing Record; therefore there will not be any changes to the actual Fare Quote Record, or Fare Quote Display.

Rapid Reprice Display Changes

In order to remain consistent with pricing display changes the response to a 4P-AR, 4PLF-AR and 4PLFB-AR entries will be modified to include the new Pricing summary:

Ticketing Fees do not apply to re-issued tickets therefore there will not be any changes to Rapid Reprice process or display associated to ticketing fees with one exception. During the reissues process if it is determined that the original ticket has no value and a brand new ticket is to be issued, this ticket can be subject to ticketing fees (TAGI).

Processing Ticketing Fees and advisory messages

If not all information is available to identify all possible ticketing fees and from the info that is available ticketing fees do not apply, then the following advisory message will be displayed:

```
** TICKETING FEES MAY APPLY - SEE >INFO TKTFEE (
```

If not all information is available to identify all possible ticketing fees, and from the info that is available **some** ticketing fees have been identified, the ticketing fees that can be calculated will be displayed as well as the following advisory message:

```
** ADDITIONAL TICKETING FEES MAY APPLY - SEE >INFO TKTFEE (
```

If all information is available to identify all possible ticketing fees and no ticketing fees apply, then no advisory message (** TICKETING FEES MAY APPLY – SEE >INFO TKTFEE or ** TICKETING FEES MAY APPLY – SEE >INFO TKTFEE) will be displayed.

If all information is available identify all possible ticketing fees, and ticketing fees apply, all ticketing fee detailed information will be displayed; the advisory message * TKT FEES APPLY TO ETKT AND MAY VARY BASED ON FOP/VAL CXR/POS will be displayed.

When an advisory message applies (other than * TKT FEES APPLY TO ETKT AND MAY VARY BASED ON FOP/VAL CXR/POS) , it will be displayed as follows

- In the pricing display, the advisory message will display below the ticketing fee information in the Pricing Summary.
- In the Low Fare Finder display, the advisory message will display below the ticketing fee information in the Pricing Summary
- In the Power Shopper or Power Pricing display below the BASE, TAX and TOTAL Line or Ticketing Fee information.

38 >
    
```

Since the form of payment has not been stored in the PNR or has not been indicated in the pricing entry, the system will calculate the ticketing fees for which it has enough information, and will issue an advisory message for ticketing fee's for which it does not have enough information to be able to calculate the fees.

Example 24 – Power Shopper

13 2. #BA 2905 Q 20DEC TH MAN LGW 1015A 1115A 733 S 0E@
14 )>
```

Since the form of payment was not specified in the entry, and there is no PNR in the AAA, the system will calculate the ticketing fee for which it has enough information, and will issue an advisory message for ticketing fee's for which it does not have enough information.

Fare Display Advisory message

A new advisory message will be displayed in fare displays to advise the user of possible ticketing fees; applicable to both Money Saver and Carrier Specific Fare Displays.

The following message will display below the ADD TAXES tag, in the Fare Display header:

* TICKETING FEES MAY APPLY - SEE >INFO TKTFFEE (

Form of Payment Option

A new optional parameter will be introduced to specify form of payment (FOP) in the pricing and shopping entries. This information will be strictly used for the purpose of calculation of ticketing fees. A FOP will still be required in the FOP field within the PNR or ticketing entry in order to issue the ticket.

New Pricing parameter to specify form of payment for Itinerary Pricing, Agent Assist Pricing, Low Fare Finder, Power Flight Search, Power Shopper and Power Pricing: \$

Entry	Example
4P	4P\$CA 4PPADT#\$CA
4P-	4P-S1/2#\$CCAX1234567890123P0297
4PLF	4PLF#\$CK
\$P	\$P10DECMCIMIA#\$CASH
4PLI	4PLI#\$CK
\$P.n	\$P.3#\$CCAX1234567890123P0297

All current error messages related to incorrectly entering a form of payment field in the PNR or ticketing entry will apply when a form of payment is specified in a pricing or shopping entry.

All currently accepted forms of payment (in the form of payment field of the PNR and ticketing entry) will be accepted. This includes accepting two forms of payment (for BSP subscribers). Note: Two FOP will not be accepted in shopping entries (\$P, 4PLI)

When the new FOP optional parameter is used to specify FOP in the pricing entry, if a FOP is already stored in the PNR, calculation of ticketing fee's for display purposes will be based on the FOP specified in the pricing entry.

Current logic regarding overriding the FOP in the PNR when the FOP is specified in the ticketing entry or Pricing Instructions will not be modified.

Ticket Designator

Modification will be made so that when an account code is specified in the current account code option, the system will validate the specified account code against ticketing fees.

Account Code

Modification will be made so that when a ticket designator is specified in the current ticket designator option, the system will validate the specified ticket designator against ticketing fees.

Glossary

Term	Definition
<i>S4</i>	Ticketing Fee Service Fees record, Validating Carrier based, used to specify ticketing and/or booking fee charges to be collected.
<i>Service Type Code</i>	A code identifying the service for which a fee will be assessed. This code is made up of a generic "tax" (service) code and a more specific Sub-code to further define the service.
<i>Significant/Primary Carrier</i>	The marketing carrier on the governing/primary sector associated to the fare basis specified in this record.
<i>Validate</i>	Compare. When used in this document to describe how to process the data, the term "validate" means to compare. For example, "validate the data against the ticket being processed" means to compare the data against the ticket being processed.
<i>Validating Carrier</i>	The carrier whose ticket stock was used to issue the ticket (plating carrier). This carrier is commonly the holder of the money for the ticket.
